“

SHIMADZU has been a leader in HPLC and UHPLC technologies for many years, providing reliable high performance instruments and quality service support. SHIMADZU OFFERS THE HIGHEST PERFORMANCE AND FEATURES that are not available from most vendors due to their innovation. Also, SHIMADZU's high resolution IT-TOF mass spectrometer offers MS capabilities not obtainable with QqTOF instruments. SHIMADZU is also a leader of the world when it comes to fast triple quadrupole mass spectrometer technology and boasts the fastest scanning speeds and the most sensitive LCMS. We are very happy to work with SHIMADZU.
